Bill – I haven't seen any substantive comments yet. I'll share with you any comments we receive.

If there are no comments, or merely a few minor ones, we'd shoot to enter the CD by the first full week in August.

John

Thank you, Henry. Your estimate of the interest due through the date of lodging (paragraph 17.b) is sufficient at this point.

I would appreciate if you, or perhaps this request is better directed to John or Jim, would provide Atlantic Richfield with an estimated timeframe for the US' filing of a motion to enter the CD, assuming no adverse comments were received? If comments were received during the comment period, I ask that the US share such comments with me for distribution to my client group. Thank you.

Bill

Subject: Interest Calculation for the Interim Past Costs Consent Decree - U.S. v. ARCO (D. Mt.)

Bill,

Pursuant to subparagraph 17.b. of the Interim Past Costs Consent Decree (CD) lodged in U.S. v. ARCO (D.Mt.), EPA is obligated to provide an interest calculation to the Atlantic Richfield Company (AR) within 30 days of the date of lodging of the CD, for Interest costs described in that subparagraph (updated Interest through the date of lodging). By my calculations, today is when the thirty days from lodging date occurs.

EPA has done an informal calculation of such Interest. That amount will be approximately \$130,000. Payment of the final interest calculation by AR is due within 30 days of the date of entry of the CD, and is in addition to the other payments described in Paragraph 17 of the CD.

Unfortunately, because of furloughs and leave time for key financial personnel, EPA cannot at this time provide the formal calculation of such interest. We expect that formal calculation to be prepared and finalized within the next two weeks.

Thank you. Please let me know if you have questions or concerns.
